SWIFT CANADIAN CO. TO CELEBRATE 25th ANNIVERSARY

Edmonton's largest manufacturing company is planning to celebrate its 25th anniversary in business in Alberta the week of September 25th. In that time, according to Mr. Gordon S. Robertson, manager, the Swift Canadian Co., Limited, has paid out around \$136,000,000 to persons within the Alberta trading area. This money has gone to producers of livestock for their animals, to thousands of men and women who have in that period been on the Swift payroll's for taxes, maintenance and other purposes.

Producers of livestock alone have received the total of more than \$86,500,000.

At the present time there are around 450 Edmonton men and women on the local payrolls. One of the features of the business of which Mr. Robertson is proud is the fact that during the last four years his company has continued to operate at close to normal, and with improving conditions plans are being made for further progress.

"This, however, is due to the courage of the farmers and livestock producers," said Mr. Robertson. "With world markets and world prices at low ebb, the producers of agricultural products have courageously refused to admit defeat. They have carried on, and we have accepted their wage and carried on with them. We have, through the world wide markets available to us, carried Alberta products to the far corners of the world. Shipments have been made to China and Japan, to other points of the far East, as well as to the great European countries.

"When Swift Canadian Co. Limited came to Edmonton in 1908, this city was only a town. Our plant was not large, for the livestock population of Alberta in 1908 was only about one third of what it now is. As the city grew and the province with it, so also did Swift attempt to keep pace with their progress.

"We hope that during the week of our anniversary every man and every woman who can, will come to Edmonton, and will visit the Swift plant. We shall have men on hand prepared to show them about the plant, to explain the various processes necessary in the preparation of the meats and other products, and to tell how these products find their way to all parts of the world."

The program as outlined for the week by Mr. Robertson is as follows: Monday, September 25—Edmonton Day. Open house to be held for residents of Edmonton and vicinity. In the evening a dinner is to be given at the Macdonald Hotel for executives of the company and old employees of the office and plant.

Tuesday, September 26—Women's Club Day. Special attention will be given to members of women's organizations who visit the plant that day. Announcement also was made that the woman's club which registered the largest number of members at the packing plant during the week would receive a substantial cheque towards its budget.

Wednesday, September 27—Retail Dealers' Day. Invitations will be sent to every retail dealer of food products in the Edmonton trading area to visit the Swift plant on this day. To the retail dealer who appears with the oldest bill of sale for Swift goods, the management plans to present a credit memorandum. Other rewards also will be made by lot.

Thursday, September 28—Farm and Ranch Day. Plans have been made to give farmers and ranchmen special attention on this day. They will be shown about the plant and marketing methods of their products will be explained to them.

Friday, September 29—Old Settlers' Day. Old time workers on the

BIG BOXING CARD AT COLEMAN ARENA

The Coleman Athletic Club are staging another big boxing card in the Coleman arena on Saturday, September 23rd.

The main event is a return engagement of ten rounds with Duke Hyssop, of Lethbridge, and Myrd Morrison, of Kimberley, B.C. A semi-final of six rounds will take place between Angus Morrison, of Kimberley, and Johnny Campbell, of Lethbridge. Another special event of six rounds is between Mickey Stewart, of Marysville, B.C., and Jimmy Snamore, of Lethbridge. Local preliminaries and a battle royal are being arranged.

Admission: ringside, \$1.00; rascals, 75c; ladies and juveniles, 25c. These prices include tax and the tickets may be procured at The Enterprise office.

EVANS IS CONVICTED

Arthur H. Evans, organizer for the Reds in British Columbia, was found guilty of having advocated the overthrow of the government by force, and was sentenced to a term in penitentiary. During the hearing, Evans often directed his remarks against Section 98 of the Criminal Code, under which he was charged. Mr. Justice Macdonald, however, stressed the fact that it was Evans and not Section 98 that was on trial. Quoting Mr. Justice Wright, of Ontario, who presided at the "Tim Buck" trial, his lordship stated: "It was not the concern of the jury as to whether it was a harsh or unreasonable law. It is the law of the land, and it is the duty of every loyal Canadian to obey the law and to enforce it, whether good or bad. You can readily see what a chaos would result if every man decided to obey only those laws or parts of laws which appealed to him as right."

BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves this week are:

"Witchery of an Oriental Lamp," John Fane; "Obedience," Michael Sadler; "The House of Rimmon," Mary S. Watts; "R.F.D. No. 3," Homer Croy; "The Night Tide," Grant Carpenter; "Crossings," Mary and Jane Findlater; "King of the Speedway," John Hunter.

The Library hours are Tuesday, Thursdays and Saturdays from 7 to 9 p.m. The fees are \$1.00 for residents and \$2.00 for non-residents per year.

ASKS ABOUT ALBERTA RELIEF CAMPS

Keen interest in the 18 relief camps set up in Alberta and their operation, which have set somewhat of a standard, has been displayed by Mrs. Franklin Roosevelt, wife of the U.S. president, who has written to Chairman Mackenzie, of the provincial relief commission, asking for details.

plant will be on hand to greet and show these visitors about. Prize will be given to the oldest settler who appears, and also to the oldest settler from the greatest distance.

Saturday, September 30—Family Day. Prizes will be given to the largest families. There will be souvenirs for the children who appear with their parents.

"It is our desire to have every person in Edmonton and its vicinity visit our plant," said Mr. Robertson. "We are proud of the part that we play in the business life of the community, and of the part that our employees have in civic affairs. We shall do our best to make our visitors feel at home and to make their stay at the plant both pleasant and profitable."

Another Big Hit

"Looking Forward"

LIONEL BARRYMORE - LEWIS STONE
BENITA HUME - PHILLIPS HOLMES

In the forthcoming elections in British Columbia, W. J. Bowser, K.C., former premier and attorney-general, and recent leader of the Conservatives, will seek election as an independent Conservative, supporting a union government.

The appeal of Harvey Murphy, Stephen Campbell and Patrick Lennan, from conviction by Mr. Justice Boyle and jury and sentence of one year's imprisonment on unlawful assembly charges, will be heard at the appeal court session to open in Calgary on October 2nd. Also the appeals of Charles McIntyre, Carl Sandstrom, Andrew Czulak, Eric Poole, Clifford Wahl and Gustav Reitschlag, appealing against conviction and sentence of six months on the same charge.

See the large bills, announcing great bargain opportunities for the pay-day and week following at the store of J. A. Kerr, Blairmore.

Toastmaster (introducing speaker): "I'm sure Mr. Jones, of the soils and fertilizer department, will give a pleasant half hour. He's just full of his subject."

When the chest begins to expand, the brain ceases to function. We have noticed this to be a fact in connection with several local would-be great men.

Isn't it a fact that there are people in Blairmore today drawing relief, who can well afford to feed and clothe themselves; and others being granted free light and water, and can well afford to pay for it?

WORLD HAPPENINGS
BRIEFLY TOLD

Two military aeroplanes collided in the air at Kiele, Poland, killing four occupants.

T. A. Love, Grand Forks, B.C., was elected president of the British Columbia-Yukon Weekly Newspapers Association.

Robert Van Riellegem demonstrated at Brussels, Germany, a miniature aeroplane which, he contends, is proof against fire and heat.

Brad's new "pure coffee" law has become effective and hereafter stores can sell only coffee fresh from the roaster. Ten days off is the limit.

The World Jewish Conference closed its sessions by adopting a resolution calling for a boycott on German goods until the rights of Jews in Germany have been restored.

The radio station at Cameron Bay has been destroyed by fire, it was learned in a radio message received at Churchill. No details regarding the blaze were given. The cause of the fire is not known.

Samuel Bribbin, 73-year-old chief engineer of the "Northern" flag ship of the Northern Navigation fleet, has seen 52 years' service on the lakes, his anniversary being held recently.

Discussion of plans for the Canadian Medical Association Convention in Calgary in June, 1933, has resulted in a decision to invite the Prince of Wales to attend as the prince's birthday, June 23, occurs during convention.

Calgary Fish and Game Association has decided to start an investigation of the disease which has killed thousands of ducks in southern Alberta this season, the heaviest toll occurred at Stobart Lake, about 42 miles east of Calgary.

Sir Gilbert Christopher Vyle, prominent financier and engineer who acted as industrial adviser to the United Kingdom delegation at the imperial economic conference held in Ottawa last year, is dead at his home in Birmingham, England. He was 63 years of age.

A Queer Voyage

Trip From England To The Black Sea In Hand Propelled Boat

Oddest of many queer voyages attempted in recent years is the trip which two Edmonton, England, men have started with the Black Sea as their goal. Their collapsible boat, made of a form of aluminium is operated by pedals and hand propellers. Four knots is the estimated speed of the boat, which weighs about a quarter of a ton. The itinerary is from Southampton, through the Bay of Biscay, past Gibraltar and into the Mediterranean, then along the northern African coast and so on. Varna is the destination of the boat, but a call will be made at Constantinople, and the return will be by way of the European coast of the Mediterranean.

Scientists Are Puzzled

Have No Theory About Weird Noises Over Yellowstone Lake

Yellowstone Park rangers and scientists are still pondering, after 50 years of mystery, over the strange sounds heard over Yellowstone Lake every morning in the late summer. The weird inexplicable noises begin like the muffled sounds of birds in flight with whirring, flapping wings, rise quickly in crescendo and end as a sustained note with distinct rhythmic quality.

All theories so far offered for the phenomenon have been dispelled by observations.

Germany's Floating Airport

Anchored In Southern Atlantic And Is Fully Equipped

The German ex-lier "Westfalen" has been taken from Cuxhaven, Germany, to the Southern Atlantic, where it is anchored between South America and Africa as the landing place for German passenger planes to South America. It recently carried out trial trips near Kiel. The "Westfalen" will be a complete floating airport, with equipment for refuelling and repairs. It has a canvas landing stage on which a plane may taxi, and take off will be by catapult.

Mutual Interests

Two men were travelling on a northbound train. Presently one, hoping to break the ice, asked his fellow traveller:

"What's your line of business?"

"It may sound strange," said the other, "but I'm a pepper traveller."

"The first man threw out his hand."

"Shake!" he said. "I'm a salt seller."

Suggests Debt Settlement

Sir Harry Armstrong Has Idea For Britain and United States

Sir Harry C. Armstrong, formerly Consul-General at New York, has written on the payment of the War debt problem and especially on the debt of Great Britain to the United States. He discusses what is expected by the United States, what is possible for Britain to do, and then he makes certain suggestions as a compromise or at least as a practical suggestion for settlement.

This comprises cutting the amount to about one-fourth its present nominal amount, or \$4,600,000,000 estimated debt to £200,000,000 to be paid in single sum in sterling gold bonds bearing 3 1/2 per cent. interest, which would be probably cashed in Europe giving the gold to the United States at once. This simply amounts to putting Great Britain through the bankruptcy court and accepting about 22 cents on the dollar, which is usually considered a very good settlement. When it is considered, moreover, that it takes fully twice as much of British merchandise to pay a dollar today as when the debt was contracted, and that all securities and industrial investments have depreciated similarly such a payment is a very fair one and the creditor is fully justified in asking its acceptance. —Hamilton Herald.

Preventing Honey Spoilage

In helping to prevent honey spoilage, the division of bacteriology, Dominion department of agriculture, has evolved a method by which an examination of freshly extracted honey will indicate whether the honey may be expected to remain safe from fermentation within one year.

It isn't the cost of getting man into office, but the upkeep that hurts.

(Humorist, London.)

Busy On New Theory

Einstein Frased With Quiet Refuge On Norfolk Coast

Anybody attempting to molest Albert Einstein in his humble refuge on the Norfolk coast may get bullets from guns of his host's game keepers. And if Commander Oliver Locker Lompon himself is around, any intruder may have to face the revolver which the member of parliament is reputedly carrying while the celebrated mathematician is under his protection.

Professor Einstein arrived from London feeling reported Nazi threats against his life, and set about at once in his quiet, tree-surrounded retreat to work on a new mathematical theory—the nature of which was not disclosed.

He said he was not responsible for the "Brown Book" which, incurred Hitlerite wrath and which, Nazis alleged, was a compilation of victims of persecution.

Sitting in a small hut in a garden facing the North Sea, the professor looked smilingly content as he puffed his pipe and spoke of the Nazi threat against him.

"All I want is peace, and where could I find a more peaceful retreat than in England?" he asked a visitor.

Recipes For This Week

(By Betty Barclay)

CHEESE BISCUITS

- 1 cup sifted flour.
- 1 teaspoon combination baking powder.
- 1/2 teaspoon salt.
- 1 tablespoon butter or other shortening.
- 1/2 cup grated cheese.
- 3/4 cup milk or water.
- Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening and cheese. Add liquid gradually until soft dough is formed. Roll 1/2 inch thick on slightly floured board. Cut with small, floured biscuit cutter. Bake in hot oven (450 degrees Fahrenheit) 15 minutes. Makes 12 biscuits.

CALIFORNIA PRUNE PIE

- 2 cups cooked prunes.
- 1 orange.
- 1/2 cup brown sugar.
- 1/2 teaspoon salt.
- 2 tablespoons butter.
- 1 cup liquid from prunes.
- 2 tablespoons cornstarch.
- Baked pastry shell.
- Meringue, flavored with few drops lemon extract (use 2 egg whites).
- Pit prunes and cut in half. Peel orange, removing white inner peel completely, and dice orange. Combine prunes, orange, sugar, salt, butter, prune liquid, and bring to a boil. Dissolve cornstarch in 2 tablespoons cold water, add to boiling mixture and cook until thick. Pour into baked pastry shell, cover with meringue and brown in a moderate oven (325 degrees Fahrenheit) for 15 minutes.

Cattle For Britain

A second shipment of beef cattle exported within a month to Great Britain by the Western Stock Growers' Association was shipped recently. The consignment totals 332, Alberta ranchers contributed 120 head and the remainder came from seven Saskatchewan ranches.

An average of 600 cabs are laid up for repairs in London at all times.

PRESIDENT OF CUBA

Dr. Roman Grau San Martin, University Professor, who will form new government.

Gathering Data On Meteors

Observers Will Check Progress During Byrd's Expedition To South Pole

One hundred and twenty sky observers, located at points all over the world, will check the progress of meteors during Commander Byrd's south pole expedition.

Byrd's chief astronomer, Prof. J. Poulter of Mount Pleasant, Ia., has made arrangements for these observation stations, which will form three progressive lines from the north to the south.

One string of stations will extend from Toronto, Canada, to the southern tip of South America. Another will be operated by the British Astronomical Association and will extend from Norway through Africa. The third will start at Tokyo, Japan, and extend through Australia.

The observers will gather data on the speed and direction of fall of the meteors. Professor Poulter will operate the southernmost station of Little America, he said.

Sheep Had Long Trek

Large Flock Driven Thirteen Hundred Miles In Australia

After passing through country generally considered impassable, drover Jack Brady and eight helpers have just completed a drive of 7,500 sheep for 1,300 miles from Mackinlay to Snowtown, Australia. To water the animals in desert spots a pumping plant and troughing was carried. The trip required 20 weeks, and at night a guard against raids by wild dogs was necessary. Only 300 sheep died on the trip.

One Sign Of Prosperity

English People Buying Good Golf Balls And Bicycle Tires

Prosperity surely is on the way, declared Sir Eric Goddard, chairman of England's largest rubber manufacturing concern, at the annual meeting in London. "People are buying first grade golf balls," once more instead of second grade pills, he said. Also they are buying bicycle tires again. "These are quite useful barometers to show whether our people are feeling good or bad about their petty cash," he added.

WELL! IF IT ISN'T MY OLD FRIEND, CHARLIE CRUMP.—The Humorist, London.

REVIEW SOME EARLY LEADERS OF ISRAEL

Golden Text: "Be strong in the Lord, and in the strength of His might."—Ephesians 6:10.
Devotional Reading: Hebrews 13:22 to 12:2.

A Review By Means Of Allusions

"A man who has had the advantage of intellectual training cannot escape the penalty of his wickedness when he batters his brains for a mess of pottage."

When generous acts bloom from unselfish thoughts,
The Lord is with us, though we know it not.—Lucy Larcom.

Happy the heart that keeps its twilight hour,
And, in the depths of heavenly peace, reclines.

Loves to commune with thoughts of tender power—
Thoughts that ascend, like angels beautiful,
A shining Jacob's ladder of the mind!

"There is waiting for you an inheritance—some promised Hebron, some gift of God's infinite love in Christ. It is for you to say, 'Give me this mountain!'"

If I am only an instrument for gathering materials and another shall build the house, I trust my joy will be none the less.—William Carey.
The moment we move, the dog is after us. He says in effect, "Where thou goest, I will go."

"There is waiting for you an inheritance—some promised Hebron, some gift of God's infinite love in Christ. It is for you to say, 'Give me this mountain!'"

"O, give me Samuel's ear,
The open ear, O Lord,
Alive and quick to hear
Each whisper of Thy Word!"

"Latest born of Jesse's race,
Wonder lights thy beautiful face,
While the prophets gifted old
Seals thee for a path of toil."

And his next son, for wealth, and wisdom famed,
The clouded ark of God, till then in tents
Wandering, shall in a glorious temple enshrine.—Milton.

You won't do much until you think it's God.
An' not constitutions, that holds the rod.

We want some more o' Gideon's sword I judge,
For proclamations ha'n't no gret edge.—Lowell.

Uses Novel Method

King Berks Gradually Getting Better Roads For Bulgaria

King Boris of Bulgaria, ardent motorist, wants good roads for his realm and has found a novel way of getting them.

Every time he drives his car over a bad and bumpy stretch, he notes its exact location, and next day invites his minister of highways and communication to lunch or dine with him.

A royal invitation is equivalent to a command. Trembling, the minister obeys. After coffee and cigars, the king suggests a horse ride into the country. The minister has to reply that he would be only too delighted and honored.

Once the bad patch of road has been reached, the monarch takes the wheel himself. Driving at first slowly, he gradually steps on the gas until he is sitting the seventies.

He takes care to see the minister is in the back seat, over one wheel. He never looks back to observe the anguished ministerial features. Once the drive is concluded, he turns around and says, "You see, Your Excellency, our roads are not so bad, after all."

The next day sees a sizeable working gang mending the offending highway.

C.W.N.A. Officers

Charles Clark, Of High River, Is Elected President

Charles Clark, of High River, Alta., was chosen president of the Canadian Weekly Newspapers' Association at the concluding session of the association's convention at Vancouver. Delegates wound up their business while on a boat trip from Vancouver to Powell River, B.C., 70 miles up the coast.

Directors include: Saskatchewan, Donald Dunlop, Estevan; John Scott, Whitecourt; S. J. Dorman, Alameda; Andrew King, Rouleau; Cameron McIntosh, North Battleford; Sam Wynn, Yorkton.

Heavy Articles Stolen

Believe it or not, records of the Philadelphia post office department show the following ponderous articles have been stolen from their distracted owners in recent months. One front porch, many number of safes weighing half a ton and more; a cannon (from a public square); two granite blocks about four feet square; a brand new telephone pole, an automobile engine and two steel girders.

If sleep is conducive of beauty some people must suffer from chronic insomnia.

Problem For
British Banks

No Way To Stop Deposits From U.S. Citizens

A large volume of "unwanted" United States money being deposited in banks of the United Kingdom constitutes a problem that no far has defied solution, two prominent United Kingdom delegates to the British Commonwealth Relations Conference said at Toronto.

"The bank rate in England is very low now," Viscount Cecil of Chelwood, chairman of the United Kingdom group, said in an interview, "and one of our chief problems is the flood of unwanted money that is pouring into the banks. These funds, deposited in the main by United States investors, are subject to withdrawal at 24 hours notice and are of little or no value, though it has not been decided yet how to get rid of them. Their deposit appears to be actuated by a desire on the part of the depositors to find the safest place possible to house their assets."

Viscount Cecil was confident England was on the road to economic recovery. He said a great deal of building was going on throughout the country. Road construction was another feature of development prominent this year.

Expedition To South Pole

Rear Admiral Byrd On Quest Of New Territory For U.S.

With a crew of 70 scientists and adventurers, Rear Admiral Richard E. Byrd, is sailing on his second expedition to the Antarctic.

The aim of the exploration is twofold: To chart and claim for the United States any areas of ice recession about the South Pole, and to determine the extent of deposits of oil, coal and other natural resources.

The aviator and explorer announced his plans after arranging for the aerial details of the expedition.

"We all feel that this last recession of ice should have left some 500,000 square miles of land about the South Pole, Byrd said—a trace of excitement in his voice as he talked of his new venture.

The bulk of this land, the explorer should be between the South Pole and South America—most of it adjoining Evelyn Byrd-land, named for his mother—which was claimed for the United States on his expedition of three years ago.

Power Of Hypnotism

London Doctor Can Influence One Patient Over Telephone

How he hypnotizes a patient over the telephone was told by Dr. Hildred Carrill, of London, during a lecture in Westminster Hospital. "This patient," he said, "has had to be hypnotized many times. The man has become so saturated with my dominance and so easily amenable to my suggestions that there is no need for him to be in the room. If he were in Paris and I telephoned him he would do exactly as I told him. If you are wise you will not lightly allow yourself to be the subjects of hypnotism. It is not worth it. It is a terrible business. Yet in certain conditions people can be cured in a day with the judicious help of hypnotism."

New Use For Radio

Installed As Means Of Communication On Russian State Farms

State and collective farms have grown so large in the U.S.S.R. that something had to be done about communication between various sections. The Institute of Electrification of Agriculture reports that it has installed radio receivers and transmitters on the tractors of one farm near Leningrad and solved the problem. The boys and girls now plow nearby along and pass the time away chatting with one another "over a distance of many miles."

Old Clock Recovered

Made By Ticket-Of-Leave Mechanic And Had Long History

After a search of many years W. J. Cartwright, of Tremors, Australia, has recovered a clock with a long history. It was made by a ticket-of-leave mechanic in Macquarie's time and originally belonged to the post office clerk, a clemency man, Rev. Robert Cartwright. Following the cleric's death in 1852 it was sold and taken to New Zealand, where the present owner found it.

Excellent crops have caused an appreciable improvement in trade in Denmark.

Finland has ruled that employers must insure domestic servants against accident.

THIS IS CAPITALISM

Is it not odd that although there are millions of people in civilized lands who are going about hungry and cold and shabby because they have not the money with which to buy food and clothes, farmers (in some parts of the world) should be burning wheat and sowing less than half the cotton they used to sow in the Cotton Belt?

Is it not strange that in Europe hundreds of thousands of poor people have to drink sham coffee made out of straw and cheap flavoring because they cannot afford to buy fresh coffee—while in Brazil where the coffee comes from they are burning coffee in the railway engines and the government of Brazil has given orders that no new coffee trees are to be planted for the next three years?

Is it not queer that in Germany hundreds of thousands of men and women are "tightening their belts" because they have not got enough money to buy the beef that used to come in from Denmark—while the other day in Denmark 250,000 cows and bulls were killed and their carcasses burned because the farmers of Denmark can no longer sell at a profit to Germany?

In Holland a short while ago 100,000 baby pigs were killed and burned. In Portugal, they have poured the wine away into the gutters. In Spain, in many orchards, fruit has been allowed to fall and rot under the trees. Rubber has oozed from the trees in Malaya, in the Dutch East Indies, and in South America, but the workmen have not been allowed to gather it. In the U.S.A., soldiers have driven workers and merchants from the oil fields so that they shall not draw up the oil from under the earth. Miles of sugar canes from the West Indies have wasted their sweetness on the plantations where no man has been allowed to pick them. Thousands of jute plants in India have been left standing. Tons of dead fish have been thrown back into the seas by the fishermen who caught them.

(From The Modern World, a junior survey by H. C. Knapp-Fisher.)

If you think that this is verse,
We're sorry to say you're mistaken.
There isn't rhyme in the whole
blooming thing.

We wrote it that way just to fool
you.

Mr. and Mrs. Gustava Ott, of Pincher Creek, are receiving congratulations on the birth of a son on September the 13th. It will be remembered that but a few months ago their youngest child strayed from home; and was found dead in a bush.

Trial of an action, claiming \$5,000 for slander, brought by Harold Wright, former Ku Klux Klan official, against John J. Maloney, at one time leader of the Klan in Edmonton, will commence at Edmonton today.

Something for Harvey Murphy to figure out for his duped hearers: How the average miner, who works from one to three days per week, is better off in any way than the guy who is working in the relief camp, well fed, well clothed, well bathed, well supplied with reading matter of the proper sort, and with plentiful hours in which to study and enjoy nature, and still have a few cents to spare at the end of the month, with no bills to pay.

Local and General Items

Mr. and Mrs. T. Gushul are business visitors in Lethbridge and Shaughnessy today.

Remember the Harvest Festival at the United Church on Sunday, September 24th; also social on Monday, the 25th. See church column for particulars.

Instead of helping to perpetuate hockeyists, baseballers and footballers, a daughter arrived to Mr. and Mrs. David Kemp, junior, yesterday. Congratulations!

Monday, October the 9th, will be observed as Thanksgiving Day, and Saturday, November the 11th, Armistice Day; both to be observed as public holidays.

The Columbus hall is being remodelled and renovated and will be ready for the Columbus Club annual dance on Thanksgiving Day, Monday, October 9th.

Defeating Blairmore 14-10 on Wednesday of last week, Bellevue took possession of the Charbonnier cup, emblematic of Crows' Nest Baseball League championship.

The marriage of Alice, daughter of Mr. and Mrs. Charles Thomason, formerly of Blairmore, to Mr. Bonetti, mine operator, of Vulcan, took place on September the 17th.

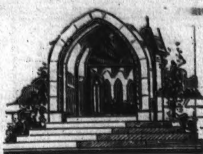

There was a large attendance at St. Luke's Anglican church on Sunday evening for the annual harvest thanksgiving service, and to hear Rev. P. C. Wade, rector of St. Augustine's, Lethbridge.

There are people in the Crows' Nest Pass who will not hesitate to believe Harvey Murphy and his ilk when they say they are dependent upon subscriptions for support of the so-called glorious campaign they are conducting. The day will be too sad when they wake up to realize facts.

Jerome Platt, who demonstrated his marathon-running ability here on Dominion Day, has decided to enter the Brigham Young University at Provo, Utah, and left recently for the southern city. Besides winning the five-mile race in Blairmore, he was an easy winner of the Calgary Herald road race on Christmas Day and the Herald "Y" senior road race at Lethbridge on Thanksgiving day last year.

Swift Canadian Company Ltd. claim to be Edmonton's largest manufacturing company, are planning to celebrate its 25th anniversary in business there, during the week of September 25th. Gordon S. Robertson, Manager, states that the C-company has paid out around \$136,000,000 to persons within the Alberta trading area during the time Swift Canadian has been in business in the capital city.

At the meeting of the council on Monday night, an attempt was made to increase license fees for local meat vendors; also to impose a license fee of \$50 upon the Blairmore Exchange, a second-hand store operated by Councillor W. L. Evans. The council has been trying so hard to prove that the town was in need of money that they were prepared to finance a trip for Councillor Olson to Ottawa. Now, to make good such loss, they are attempting to bleed good honest citizens far more than they can afford. In the case of the imposition of a license fee upon the second-hand store, to the average mind it amounts to nothing less than spite, and there is sufficient grounds for the government stepping in and taking full control of our affairs. The above is simply a follow-up of other matters already put through by the present incompetent council. Money from the town's treasury has been granted to support a picnic, the personnel of which came from all towns in the district. Why should the ratepayers of Blairmore have to finance such affairs. The license fee upon local butchers is simply protecting the unlicensed farmers, who peddle meats, vegetables, etc., from door to door and get the cash.

BLAIRMORE UNITED CHURCH
Rev. Albert E. Larks, Minister

"Serve the Church that the Church May Serve You."

Services Sunday, September 24th, the minister in charge.

11 a.m.—SENIOR SCHOOL.
2 p.m.—JUNIOR SCHOOL.

7:30 p.m.—PUBLIC WORSHIP.

Annual Harvest Festival Service. Flowers, fruit or vegetables will be gratefully received at the church during Saturday, the 23rd, and where delivery is not convenient, please phone 165 and same will be collected.

On Monday evening, September 25th, at 8 o'clock, a social is being arranged to which all members of the congregation and their friends are cordially invited. Refreshments will be served and a very pleasant evening is anticipated.

ST. LUKE'S CHURCH NOTES

Rev. A. S. Farthing, B.A., Rector

Sunday school in the hall at 10 a.m. Morning service in the church at 11 o'clock.

A COMPARISON

Australia balanced her budget with a few millions of dollars to spare. Canada had a deficit of \$150,000,000 last year and will have another huge one to report this year.

Australia saw things as they were and acted promptly. Canada took the advice of conservative bankers and followed the orthodox financial idea.

Australia inflated her money, 25 per cent below the British pound. Canada sought to keep her dollar halfway between the pound and the United States dollar.

Australian farmers were getting 70 to 80 cents for their wheat when Canadians were getting half the price. Canadian wheat farmers went headlong into a financial morass in which they are still laboring. Australian farmers were able to carry on fairly well and pay debts and taxes to a degree unheard of in this fair Dominion.

As between the two countries, the advantages lie with Canada. This Dominion is infinitely more favored with natural resources and actually less burdened financially from a comparative standpoint. But we decided to stay with "honest" money until the pressure got too great, while Australia decided to be honest with her people, particularly her farmers. Those who have been pointing out Germany, Russia and Brazil, when monetary inflation was mentioned, should now gaze fixedly at Australia.—Hanna Herald.

The General Motors Corporation of America are negotiating with the Newfoundland government for a concession to build a road across that country, remuneration to be on the basis of tolls collected from the motor travelling public.

W.M. R. HOWSON, PROVINCIAL LIBERAL LEADER, CALLS FOR COMPLETE RE ORGANIZATION

Mr. W. R. Howson, leader of the Liberal party in Alberta, speaking at a well-attended meeting at Calder, in referring to the Provincial Liberal programme, stated that the Liberal government, after the next provincial general election, would completely re-organizing every department of the government in order to increase efficiency and to eliminate the tremendous waste, duplication and unnecessary expenditure which exists at the present time.

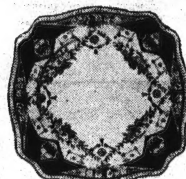

He particularly stressed the necessity for a new Department of Labor and Industry and assured his audience that this could be done and at the same time still greatly decrease the costs of the administration. He said that such a department was essential to Labor in achieving its aims, while at the same time the function of this department would be to develop the several industries of the province.

He said that the C.C.F. held out nebulous theories that could never be attempted, whereas the Liberal party assured the taxpayers of practical and definite action. Both labor and industry had been neglected in the province and what was needed was certain support by the government of both of these interests. The provincial government should have within its ranks men who are definitely interested in and connected with each and all of the basic interests of agriculture, mining, merchandising, lumbering and fishing, as well as the labor forces operating these. He definitely pledged the provincial Liberal party to establish this new department when elected and said that this was no election promise, but a statement of policy.

COWLEY HAPPENINGS

(Received too late for last issue. September 12.—Owing to extreme drought in this part of Alberta this summer, and in spite of crops here being almost a total failure, the Doukhobors threshed a sixty-acre field of fall wheat, adjoining town, that averaged twenty-seven bushels of No. 1. grade per acre. This field was seeded around the first of August last year, on carefully prepared land. It has been estimated that there will perhaps not be more than 15,000 bushels of grain threshed in the whole district this fall.

Mr. and Mrs. Lawrence Peel, of Lundbreck, were Blairmore visitors on Saturday.

Miss Edna Fulton, who paid a visit of a few days with her sister, Mrs. H. C. Morrison, has returned to take up her duties on the Calgary teaching staff.

Jack Cowin has returned from Vauxhall, where he spent several weeks during the summer holidays on the farm with his brothers.

Peter Veregin recently paid a visit to the Doukhobor colony here.

Sept. 18.—Mrs. V. Sanderman, Mrs. Cruickshank and Miss Kathleen Elton were Blairmore visitors on Saturday.

HILLCREST HAPPENINGS

Arnold Smith, of Montreal, was a visitor at the home of his parents, Mr. and Mrs. F. J. Smith.

Mr. and Mrs. T. O. Davies and Mary motored to Calgary on Saturday, where Mary will continue her studies.

Mr. and Mrs. F. J. Smith, accompanied by their son Arnold, motored to Calgary last week.

Donald Thornton left last week for Calgary, where he will attend the Crescent Heights high school.

Puts An End To Bunion Pains

No Need to Suffer Another Day

There is one simple yet inexpensive way to reduce inflammation of swollen toe joints and help get them down to normal and that is to apply Moore's Emerald Oil night and morning. Ask the Blairmore Pharmacy or any first class drugist for an original two-ounce bottle of Moore's Emerald Oil (full strength) and refuse to accept anything in its place. It is such a highly concentrated preparation that two ounces lasts a long time, and furthermore if one bottle of Emerald Oil does not give you complete satisfaction you can have your money refunded.

Special note: People who want to reduce swollen or varicose veins should get a bottle of Moore's Emerald Oil at once. Applied night and morning as directed they will quickly notice an improvement which will continue until the veins and bunions are reduced to normal.

1908 - 1933

Swift Canadian Company, Limited

Edmonton, Alberta

Invites you and your friends to its

Anniversary Celebration

September 25th to 30th, inclusive

The courage of the farmers and live stock producers, who have carried on in good times and bad, and the faith of the retail dealers, in this great province and its surrounding trade area, have helped us to grow as Alberta has developed.

We want to show our appreciation of this courage and faith of agriculturists and retail dealers and of the confidence of the hundreds of thousands of consumers who have used, and who are now using, our products. To do this we shall keep open house for one week.

Come and see how Swift's Premium Ham and Bacon, Ovenized, and Swift Silverleaf Brand Pure Lard, are made. See the care, skill and cleanliness insisted upon in the preparation of Swift's fine foods. See how Government Inspectors safeguard your health.

Here is our Program:

Monday, September 25.—Edmonton Day.

Tuesday, September 26.—Women's Club Day. A cash award for the Women's Club that sends the most member-visitors to the Swift plant during the week. Be sure that your club members register.

Wednesday, September 27.—Retail Dealers' Day. Dealers from all over this trading area are invited. Special prizes will be awarded.

Thursday, September 28.—Farm and Ranch Day. Special features of general interest.

Friday, September 29.—Old Settlers' Day. Old time workers on the plant will be on hand to greet and show visitors about. There will be a prize for the oldest settler who appears. Also a prize for the oldest settler from the greatest distance within the Edmonton trading area.

Saturday, September 30.—Family Day. Bring the family to see how those good Swift foods they like so well, are made. A prize will be given for the largest family in attendance—and there will be souvenirs for the children.

Swift Canadian Company, Limited

Makers of Premium Ham & Bacon, Ovenized.

G. Goodwin, Miss C. Spooner (second points gained in outdoor-grown produce; F. Padgett, the Royal Bank cup (100 lbs of flour) for most Colored embroidery work on white for indoor-grown produce; T. Clay-points in culinary section; G. or cream material—Miss G. Goodwin, ton, the W. R. Reader trophy; Reid, Coleman, Experimental Farm Miss C. Spooner, Miss G. Goodwin. for most points in flowers; George setting of Barred Rock eggs for best Home-made candy—Miss G. Goodwin, Green, the Harris cup for best exhibition in art; R. Glover, the West mental Farm setting of Barred Rock Layer cake—Miss Ivy Rhodes, Canadian Collieries cup; G. W. Goodwin, the Birks' cup, for best collection of annuals; Mrs. Murphy, Blairmore Horticultural Society cup for most points in needlework; prizes awarded.

The International Wheat Agreement

In this column last week reference was made to the speech delivered by Premier Bennett on his return to Canada from the World Economic Conference and International Conference of Wheat Exporting and Importing nations. Important facts, figures and general information affecting the world wheat situation were presented, all of which had a bearing upon and led up to the entering into of an agreement by twenty-one nations vitally interested either as exporters or importers of wheat designed to advance the common interests of all.

Inasmuch as there is no question of more vital importance to the people of Canada, and more particularly of Western Canada, than wheat, we propose to supplement last week's article by a further reference to the subject. Statistics compiled covering a long period of years go to establish the fact that when the wheat producers of the world are prosperous, that is, when the price of wheat is high enough to return a fair profit to the farmers raising it, industry generally throughout the world is prosperous. In other words, wheat is shown to be the barometer of prosperity. Naturally so, because it is the standard food of the great bulk of the human race.

First, we recite the terms of the new international wheat agreement: The chief wheat exporting nations, that is Canada, Australia, Argentina and the United States, agree to limit their combined exports of wheat in the crop year August 1, 1933, to July 31, 1934, so that the total world exports of all countries shall not exceed 560,000,000 bushels. Of this amount Canada's export allotment is 200,000,000 bushels.

These four countries further agree that during the following crop year August 1, 1934, to July 31, 1935, they will limit their exports of wheat to maximum figures 15 per cent. less than the average yield and average acreage during the period 1931-1933 inclusive.

The minor wheat exporting countries, that is Bulgaria, Hungary, Roumania and Yugo-Slavia agree to limit their combined wheat exports in both the crop years 1933-34 and 1934-35 to 50,000,000 bushels.

While Russia entered into no definite agreement as to restrictions on either production or exports it did agree to enter into further negotiations governing exports.

On the other hand, the importing countries:

(1) Agreed not to encourage any increase in the area sown to wheat in their respective countries.

(2) Agreed not to take any governmental measures the effect of which would be to increase the domestic production of wheat.

(3) Agreed to adopt every possible measure to increase the consumption of wheat.

(4) Agreed to the removal of measures which tend to lower the quality of breadstuffs, and thereby decrease the human consumption of wheat.

(5) Agreed to lower their customs tariffs on wheat when the world price reaches and maintains for a specified period an average fixed price.

Finally, an international Wheat Advisory Committee was set up, representative of both exporting and importing countries, to watch over the working and application of this agreement.

Such is the new international agreement governing wheat production and export. It is one concrete outcome of the World Economic Conference. Whether it will prove practical in operation and satisfactory in its results time alone will disclose.

It involves the export of wheat on the part of Canada than was hitherto the case in normal years. Consequently, it involves the raising of less wheat, and the putting of a stop to further increases in wheat acreage and production. For the crop year 1934-35 this reduction is set at 15 per cent. below the average for 1931-33.

Admittedly, the Dominion Government can restrict exports to any figure it may like. That is entirely within its control. But how can that Government limit production? In the United States it is being attempted by paying a bonus to farmers to reduce their wheat acreage, the said bonus to be paid out of a fund created by imposing a special tax on all wheat raised in the United States. In other words, compensation is being offered the U. S. farmer. It is reported from Ottawa that this idea does not meet with favor nor find much support there.

It is further reported from Ottawa that the Federal Government does not intend to apply any compulsion to bring about a 15 per cent. reduction in wheat acreage, but will rely on an educational campaign among farmers designed to encourage and bring about a voluntary reduction by them. Will the farmers respond to such a campaign? And if certain farmers are willing, and certain farmers are not, what will the result be? If one farmer reduces 15 per cent. and another increases 15 per cent. the country will be in the same position. If one set of farmers decline to reduce 15 per cent., even if they do not increase their production, it means that another set of farmers would have to reduce 30 per cent. in order to bring about an average 15 per cent. reduction.

Then, it is to be noted, that the 15 per cent. reduction in 1934-35 is to be from the average yield of the 1931-33 inclusive years. That means that tens of thousands of Western farmers and millions of acres of land produced little or nothing in these years. They must be allowed to produce as largely as possible in 1933-34 and 1934-35 in order to recognize the losses in these disastrous years. If they are to do so, and at the same time the total production is to be reduced by 15 per cent., it seems inevitable that those farmers who had fair crops in the period 1931-33 must decrease their future production by very much more than 15 per cent.

And what, it will be asked, is to be done with the acreage taken out of wheat production? Can our farmers afford to work it and allow it to lie fallow? They cannot afford to let it run to weeds. Will the result not be to devote it to other grains with the inevitable result of large surpluses of such grains over and above domestic and export demands?

Without attempting to speculate on the effect which weather conditions will inevitably have on the success or failure of the proposed plan of restriction, and which of course are beyond all human control, one further question arises: If production is not decreased while at the same time exports from Canada are restricted, and as a consequence surpluses pile up on the farms or huge carry-overs are built up in the elevators, what will the effect of such surpluses have upon the world price? It is admitted that our present large carry-overs have depressed and continue to depress prices. What hope is there of a rise in international prices, and a consequent lowering of tariffs by importing countries, if available wheat supplies are not limited to demand?

Then, too, there is the question as to the effect this new international agreement, with its provision for reductions of customs duties by importing nations when the price of wheat is high enough to return a fair profit to the Great Britain and Canada, whereby Britain imposes a duty on foreign-grown wheat while admitting our wheat free. The effect of this is to depress the price of foreign wheat and to increase the price of Canadian wheat. In the market before the provision of the new international agreement becomes operative under which the importing nations undertake to reduce their customs tariffs against wheat, that of Canada included.

Summer Complaint Plays Havoc With the Bowels

Few people escape an attack of summer complaint. It may be slight or it may be severe, but both the young and the old are liable to it during the summer months. You cannot tell when it seizes you how it is going to end. Let it run for a day or two and see how weak and prostrated it will leave you.

On the first sign of an attack of any looseness of the bowels take a few doses of Dr. Fowler's Extract of Wild Strawberry and see how quickly it will give relief.

Carnivorous Plants

Trap Insects With Lightning-Like Rapidity in Snapping Maws

New light was cast on mysterious workings of the snapping maws of carnivorous plants. Prof. F. E. Lloyd, president for 1932-33 of the Royal Society of Canada, in his presidential address to the botanical section of the British Association for the Advancement of Science, recounted his observations of some 75 species of the bladderwort—a type of plant that snatches its food from air or water.

The professor of botany at McGill University, Montreal, contributed a highly technical paper which he labelled a continuation of his review of carnivorous plants.

The address set out the details of the structure of the "door" which the flesh-eating aquatic or terrestrial plant shuts on such unfortunate small insects as may come wandering within reach. Super-speed-motion pictures, Prof. Lloyd related, had disclosed the hungry bladderwort opened the fatal door in 1-100 second and closed it of the second, completing the whole operation inside 1-16 second. Included in the 75 types in Prof. Lloyd's summary was the purple bladderwort found growing in the vicinity of Montreal.

Old Newspaper Changes Hands

Selkirk Record Was Founded 48 Years Ago

The Selkirk Record, weekly publication founded 48 years ago by the late James Stewart and carried on by his son, Robert, has been sold by his daughter, Mrs. Margaret I. Colclough, to Charles A. Crowder, who has been a member of the Record staff for the past ten years, and W. H. G. Taylor. The management of the paper has been in the hands of Mrs. Colclough for six years, owing to her father's illness, part of the record of his active engagement with another newspaper enterprise in the eastern part of the province. The new owners announce a policy of independence in politics.

Should Have Foreseen Slump

Expert Thinks Managers Of Banks Were "Extremely Blind"

Managers of central banks throughout the world were "extremely blind" in not foreseeing the approaching depression some years ago, the royal commission on banking was told at Ottawa. It did not follow that it was impossible to secure a Canadian of sufficient ability and vision to head such an institution in Canada.

This viewpoint was expressed by A. J. Glazebrook, special lecturer in banking at the University of Toronto, in answer to questions by Sir Thomas White, a member of the commission.

Saskatchewan Lumber Cut

Report For Last Year Gives Amount As 28,815,140 Feet

Although the amount of lumber cut in Saskatchewan during 1932 was considerably less than for the previous year, the majority of mills managed to operate at least part time, according to a bulletin of the department of railways, labor and industry. The total number of saw mills in operation in 1932 numbered 103. Thirty-four mills including some of the larger mills did not operate. The total amount of lumber cut by the operating mills was 28,815,140 feet board measure.

Willing To Help

For months he had been her devoted admirer. Now, at long last, he had screwed up sufficient courage to ask her the most momentous of all questions.

"There are quite a lot of advantages in being a bachelor," he began, "but there comes a time when one longs for the companionship of another being—a being who will regard one as perfect; whose name can be used in an absolute property; who will be kind and faithful when times are hard; who will share one's joys and sorrows."

To his delight he saw a sympathetic light in her eyes. Then she nodded in agreement.

"So you're thinking of buying a dog?" she said. "I think it's a fine idea. Do let me help you choose one!"

Where Phonographs Are Barred

Phonographs have been barred from Yamen in Southeast Arabia. The Imam has ruled that anyone having one of the sound producers will be dealt with severely. He also has issued another law imposing a tax on every man who shaves his beard.

Saskatchewan is the world's greatest wheat growing province.

3 MONTHS ON BISCUITS AND MILK

Woman's Digestive Troubles

Everyone who is subject to any form of indigestion should know of this woman's experience. Advice from one who has had such severe attacks is advice worth having. She writes:

"I suffered from indigestion, gastritis and constipation, and was so very ill, I had (on medical advice) to live on soda biscuits and milk for three months. Well, a friend advised me to take Kruschen. (Mrs.) M.R.L. to say my troubles are ended. I can eat and enjoy a good meal without any painful after-digestion, my skin is clearer—in fact quite clear—and there is no sign of constipation. I would advise anyone suffering the same to take Kruschen."

The immediate effect of the six sals in Kruschen is to promote a natural flow of the digestive and oblique juices of the body. Soon after you start on Kruschen you will find that you are able to enjoy your food without any distressing after-effects. And as you persevere with the "Little Daily dose," you will see that the relief which Kruschen brings is lasting relief.

Decorative Radiator Caps

Detroit Jury Advises Abolition Of Dangerous Car Adornments

Nude figures, Greek goddesses and long-necked birds whose distorted forms adorn the radiator caps or automobiles may soon disappear in Michigan if the recommendation of a coroner's jury is acted upon by the Legislature.

The jury returned a verdict of not guilty in the case of a driver whose radiator ornament pierced the chest of a 72-year-old man who suffered a punctured lung and died soon after the accident.

The recommendation was made by Coroner Albert A. Hughes when the verdict was announced. It asked that the Legislature pass an act prohibiting the use of radiator embellishments which extend beyond the front of the radiator.

Dr. Hughes said that a number of recent fatalities have resulted because of these decorative radiator caps.

Supplies For Northern Post

Steamer Delayed By Storms Reached Craig Harbor Safely

A sudden lull of the northeast gales that howl over the ice pack surrounding the north pole enabled the Hudson Bay Company steamer "Nanook" to drop supplies at Craig Harbor, Canada's far-northern police post. Wireless messages received at Ottawa by the department of the interior said, high seas and driven snow held the boats off the harbor only 800 miles from the pole for five days until the storms abated sufficiently on Sept. 7 to permit unloading.

The steamer, carrying supplies to Royal Canadian Mounted Police posts in the Arctic, was at the northern apex of its patrol at Craig Harbor.

Residents Should Know

Lady Overbridge Tells How Newfoundland Is Pronounced

On the Canadian National Steamships line "Lady Somers," coming up the St. Lawrence recently, newspapermen learned from good authority how to pronounce "Newfoundland." Granted that people who live there have a right to determine pronunciation, and that Lady Overbridge, wife of Sir Joseph Overbridge, after 40 years residence in Newfoundland, is an authority, the way to pronounce it is "New-fun-land," with all the stress on the "land."

For Hot Weather Use

London's commissioner of police is making tests of aluminum hats for policemen. A number of men on duty have been wearing helmets lined with aluminum foil, which is said to make them extremely cool. If the tests prove satisfactory aluminum hats will be ordered for hot-weather use.

While a couple in America were playing golf a cyclone destroyed their house. But, after all, what do golfers want with a house?

Up-Side-Down Flying

Italian Ace Describes Feeling In Three-Hour Trip

Sitting in a Chicago hotel, breakfasting on a muckmelon and coffee, Elmer T. Falconi told of his experiences in making a new world's record for up-side-down flight. His latest wrong-side-up flight was from St. Louis to Joliet, Ill., a trip that took three hours and seven minutes because of the slow speed rate that this type of flying requires.

"It's a swell feeling when you turn upright again," said Falconi. "It's like getting well after you've been sick."

Asked if a sensation of dizziness overtook him the swarthy little Italian ace replied, "Ah, no. The only sensation is one of pain because of the constant weight on one's shoulders. In this method of flying the pilot is held in the ship by straps which fasten around the shoulder, and the sensation felt is the same one given from carrying a 150-pound weight in a basket hanging from the shoulders."

The most thrilling experience in Falconi's career, he said, was had on this trip when his right safety strap gave away about an hour out. He was dropped half way out of the cockpit, his goggles were torn off by the terrific wind; and he was unable to see. An added peril was the fact that he did not wear a parachute, its weight being too great a handicap in the suspended position.

Egypt Buys British 'Planes

Said To Be Used In Fight Against Drug Traffic

A firm in Manchester has received an order from the Egyptian government for ten aeroplanes of the Avro 529 type. The type is a development of the "Tutor" type, an order for 300 of which was placed with the firm a year ago by the British air ministry, on the fulfilment of which the Newton Heath works are still engaged. The type is one on which pilots can be trained in every branch of military flying, including blind flying and bombing.

It is reported that the machines are to be used in the Egyptian government's fight against the drug traffic. The machines are admirably adapted for long-distances patrol work, and have machine-gun, wireless and photographic equipment, and each carries a pilot and a navigator.

Gas In The Stomach

Gas in the stomach, belching, sour water breath, pain after eating, etc., can be overcome within three minutes if you will take a little Bisulard Magnesia in water after you eat. The ordinary Bisulard Magnesia which you can get at any drug store will correct acid stomach and stop acid indigestion immediately. Try it and see.

Ready For Distribution

Saskatchewan Salt From Simpson Well Placed On Market

The first shipment of Saskatchewan salt from the Simpson salt well is ready for distribution. More than seven years ago a company drilled for oil and about two years ago secured a salt brine deposit. The brine is being vaporized salt by the Simpson Oil Company.

A well is being drilled about one and a quarter miles east of the salt well, where it is hoped to tap gas, to be used at the salt well for vaporization. With the profits from the salt the company will continue its search for oil in a field that geologists have said has good possibilities for the discovery of oil.

Tea Restriction

Protection Afforded Too-Grower Results In Higher Prices

In April a restriction was placed on tea exports from Ceylon, India, and Java, in order to raise prices to growers, who, for almost four years, had been suffering devastating losses. Higher prices have resulted, not only at the gardens, but also here on our own markets, and many package teas already cost more than they did six months ago. Some of the finer quality brands are as yet unchanged, however, and are, consequently, even better value than at last April.

Many Life-Guards

On the 4½-mile beach which limits the seaside resort to Portmouth 900 volunteer life-saving guards have been taken on duty. Southern is the first town to respond to a campaign for safety bathing, following scores of drownings this season.

Kentucky has a postoffice in the town of "Ice."

All's Well That

Smokes Well

All's well with the pipe, all's well with the smoker when Ogden's Cut Plug is lit and drawing well.

Ogden's Cut Plug is a downright fine tobacco . . . cool, mellow and satisfying . . . made for the pipe, made to pack right, to light right and to smoke right. See what a difference it will make in your pipe!

BANKS SUBMIT CASE BEFORE THE COMMISSION

Ottawa, Ont.—Canadian chartered banks laid their case before the Royal Commission on Banking. As a witness to the case, the banks presented a score of briefs dealing with matters of vital importance to the financial life of the Dominion.

In a single day they dealt with 50 points which have been raised and emphasized before the commission from coast to coast. Swiftly they placed upon record their views on contentious matters.

First and foremost, the chartered banks came out definitely against creation of a central bank "in the present extremely disturbed state of business."

They stressed the danger of political influence. This danger would be present in ordinary times. "But it was far more pressing now when years of unprecedented depression have brought dangerous currency theories into party politics and when it is quite within the bounds of possibility that some political party might gain office pledged to carry such theories into practice."

However strong might be the case for a central bank, it would undoubtedly be better for this country to have none than to have a central bank subject in any way to political pressure," was the positive assertion.

Marshalling arguments for and against the proposed central institution, in a 30-page document, the chartered banks supplied an alternative proposal. They suggested the appointment of an administration board "composed of experts in finance and currency and broadly representative of the business and agricultural interests of Canada" to administer the functions now performed by the treasury board.

"We believe that the administrative board would be helpful, that it would be a careful approach to the further development of this country's financial machinery, that it would be inexpensive to operate, that it would not interfere with the ability of the chartered banks to serve the public adequately, and that, in due time, as it demonstrated its competence and efficiency, it might become an institution to which perhaps greater responsibilities might be entrusted," the banks submitted.

Conference Was Success

Treasury Officials Report Marked Progress At Three-Day Meeting

Ottawa, Ont.—Marked progress towards a common plan for presentation of public finance was reported at the close of the three-day conference of Dominion and provincial treasury officials.

An official statement issued at the conclusion of the parley declared: "The purpose of the conference, it was emphasized, was not to produce changes in the form in which the public accounts of the provinces and other bodies are being published by each, which must follow individual requirements, but rather to achieve a scheme of reporting to the Bureau of Statistics as central clearing house whereby broad comparisons may be arrived at and a consistent purview obtained for the country as a whole."

"The discussions were of a practical and constructive nature throughout, and as a result the bureau will submit to the provinces at an early date a standard form of reporting which, it is expected, will achieve the objectives aimed at."

Ontario School Does Away With Homework

Oakville Collegiate Will Add Extra Hour To School Day

Oakville, Ont.—The virtual end of home work and detentions for high school students, with more work done in less actual studying time, will mark a new educational plan to be introduced into Oakville High School by Principal R. H. Archibald.

An hour will be added to the school day, but practically no home work will be called for from lower and middle classes, while upper school home work will be cut in half.

Northern Air Record

Edmonton, Alberta.—John Bythell, Canadian Airways pilot, flew from the rich mining fields of Great Bear Lake in the far north to Edmonton in seven hours and 45 minutes, a new record for the 1,400 miles. The previous record was eight hours 35 minutes, made last spring by Bythell.

W. N. U. 1932

Caring For Livestock

Alberta Announces Policy For Dried Out Areas In Province

Edmonton, Alta.—Announcement of the policy under which the feed shortage situation in the dried-out areas of the province will be cared for, was made by Hon. George Hoodley, arrangements having just been completed with the federal government and the railways in the matter.

The policy covers not only the shipment of feed for necessary farm livestock into the areas concerned, but also the shipment of commercial cattle and sheep, and of farm work horses out of the areas to winter feeding quarters. Shipment of commercial cattle and sheep to winter feeding quarters will be undertaken on application from bona fide owners of such livestock, who shall certify that the stock are for winter feeding and that the ownership will be retained until such time as permission for sale is granted by the Department of Agriculture.

There will be no cost to the shipper for freight, the railways having granted 50 per cent. of the cost and the federal and provincial governments bearing equally between them the other 50 per cent.

Moved From Office

Senator Murdoch No Longer Vice-President Of Railway Trainmen

Cleveland, Ohio.—Senator James Murdoch was removed from the office of Canadian vice-president of the Brotherhood of Railway Trainmen by the executive board of the organization.

The removal, to take effect Sept. 15, came after President A. F. Whitney, in a 30-page document, the chartered banks supplied an alternative proposal. They suggested the appointment of an administration board "composed of experts in finance and currency and broadly representative of the business and agricultural interests of Canada" to administer the functions now performed by the treasury board.

"We believe that the administrative board would be helpful, that it would be a careful approach to the further development of this country's financial machinery, that it would be inexpensive to operate, that it would not interfere with the ability of the chartered banks to serve the public adequately, and that, in due time, as it demonstrated its competence and efficiency, it might become an institution to which perhaps greater responsibilities might be entrusted," the banks submitted.

Government To Contribute

Pay 75 Per Cent. Of Freight Charges

Ottawa, Ont.—The Dominion policy of paying 75 per cent. of the freight charges on carloads of livestock from all provinces, with the exception of Ontario, to the Royal Winter Fair opening in Toronto on November 22, is being continued for this year. Announcement to this effect was made by the Department of Agriculture.

The policy is applicable only in connection with transportation from assembling points to Toronto and also to assembling points on the return journey. Any charges incurred before the carloads are assembled, and after they each the assembling points on the return journey, will not be considered as a charge against the Dominion government.

The 75 per cent. contribution by the Dominion is to be paid on each case, pays the remaining 25 per cent.

Expect Large Wheat Yield

District In Southeastern Alberta Places Figure At 2,525,000 Bushels

Calgary, Alberta.—In the district between Stirling and Manyberries, in southeastern Alberta, farmers expect a larger yield of wheat than last year, placing the figures at 2,525,000 bushels. This area is the bright spot of drought-stricken southern Alberta.

With prices about 50 per cent. above last year, the farmers of the Stirling and Manyberries district expect to emerge to some extent from debts which submerged them during lean years. They are in a better position than farmers in districts which usually produce good crops.

The average yield is expected to be 13 bushels per acre, with Etiskom district reporting a 50-bushel yield on one farm.

Fourth Tour Of Canada

Englishman Claims To Be Champion Cyclist Of World

Calgary, Alberta.—John A. W. Crawford, policeman, soldier, and sailor in his hectic career, who hails from Sunderland, England, claims to be the world's champion cyclist with 150,000 miles to his credit. Crawford, long known as a bicycle since 1919, has visited almost all countries in the world. He is now touring Canada for the fourth time and rested here a few days before starting westward.

Choice Cattle For Churchill Shipment

Twenty Carloads To Go From Saskatchewan And Alberta

Calgary, Alberta.—Several carloads of cattle from Calgary and other Alberta districts, will be included in the shipment to leave Churchill, Manitoba's northern seaport, for the United Kingdom, September 27, aboard S.S. Brandon.

Jack Byers, manager of the Western Stock Growers' Association, is handling the shipment of 200 head of prairie cattle and plans collecting a number from this area.

It was pointed out by Alberta cattlemen they had urged a trial shipment of beef cattle from the district of Churchill earlier in the year. The proposal sponsored by various organizations, but difficulties were met. Close co-operation, however, between provincial and Dominion ministers removed the obstacles, making the September 27 shipment possible.

Costs of shipping via Churchill will be comparable with those of the Montreal route, it was added. Twenty carloads are expected to be taken from Saskatchewan and Alberta, with choice steers, weighing 1,100 to 1,200 pounds receiving preference so the consignment will be well received in the Old Country.

MOTOR OWNERS PAY HUGE TAX TO OPERATE CARS

Ottawa, Ont.—Motor vehicles operated in Canada ran their owners into a tax bill of \$56,700,000 last year, according to an estimate released by the Dominion Bureau of Statistics. That meant over \$50 for every registered motor vehicle—to say nothing of the fines.

The provinces collected \$21,126,271 for registration fees on vehicles and operators, and another \$27,053,516 in gasoline taxes. The Dominion took in \$4,508,471 on import duties and excise taxes. In addition there was the sales tax on cars sold, estimated at \$2,500,000, and the import duty on gasoline, estimated at \$1,500,000.

Motor vehicle registrations in Canada for 1932 amounted to 1,114,503, including 945,564 passenger automobiles, 1,530 motor buses, 157,900 trucks and other commercial vehicles and 8,419 motorcycles.

This was a decrease from the 1931 registrations of 86,404 motor vehicles or 7.2 per cent. The greatest decrease was in New Brunswick, where total registrations decreased by 16.5 per cent. and passenger cars by 17.5 per cent., and Saskatchewan followed with a decrease of 15.5 per cent. in total registrations.

Canada, with one motor vehicle to every 8.4 persons, ranked fourth in density, the United States leading with a density of one motor vehicle to every 5.1 persons and Hawaii and New Zealand ranking second and third. Ontario, with 6.5 persons per motor vehicle, had the greatest density in Canada. British Columbia was second with 7.7 persons per motor vehicle.

RANSAY MACDONALD ENJOYS LEISURE

After the strenuous Economic Conference sessions in London, Ramsay MacDonald went North to his native heath to enjoy a well earned rest. Here we see him (centre) at the Scottish dog trials held at Keith, Banffshire. He is watching one of the competitors in action penning sheep while other rivals crouch at the British Premier's feet waiting their turn to perform.

COL. R. S. McLAUGHLIN

Prominent Canadian automobile industry leader who, in a recent speech, urged the government of the day in over-taxed automobiles. Col. McLaughlin stated there was "danger of killing the goose that lays the golden eggs."

Favor Rejection Of Cut

Great Number Of Railwaymen Voted Against Pay Reduction

Montreal, Que.—Trainmen, conductors, telegraphers, engineers and firemen in Montreal and vicinity now voting on the general strike referendum being conducted by the railroad running trades, have filed an overwhelming number of ballots in favor of a strike as an alternative to taking another pay cut," The Montreal Star says.

"It was discovered that with the exception of the telegraphers the brotherhoods were casting their votes almost unanimously in favor of rejecting the cut. The telegraphers, it was found, are voting in the proportion of 65-35 for a strike, if negotiations with the companies cannot be successfully completed," the paper continues.

Plight Of The Farmer

Has Borne The Brunt Of Hard Times On The Prairies

Calgary, Alberta.—"Unless more consideration is given the farm population of the prairie provinces by the national economic policy a situation may arise which will have exceedingly serious consequences," according to L. D. Nesbitt, publicity director of Alberta Wheat Pool, in an address here. "No nation," he added, "has been more seriously injured by declining prices of agricultural products than has Canada and the prairie provinces have borne the brunt of it." He denied the trouble was due to lack of efficiency or skill on the part of the farmers.

Elects First Woman Member

Wellington, New Zealand.—The first woman member to be returned to the New Zealand parliament was elected in Lyttelton. She is Mrs. Elizabeth R. McCombs. She succeeds to the seat made vacant by the death of her husband. Mrs. McCombs ran as a Labor candidate and received 6,080 votes. F. W. Freeman, Coalition nominee, obtained 3,480 votes, and A. Hilla, Independent Labor 263.

Wins Fortune

Montreal Man Wins Large Sum In Sweepstakes Ticket

Montreal, Que.—Adrien Vanier, 56-year-old shoe store manager reported to have won \$54,000 on a sweepstakes ticket in the Leiger classic, stepped into court and drew out a summons against his wife on a charge of participating in a lottery. Mrs. Vanier is scheduled to appear in court this week.

Vanier took action against his wife under section 236 of the criminal code, which provides that money obtained through illegal sweepstakes "is liable to be forfeited to any person who sues for the same by action or information in any court of competent jurisdiction."

The winning ticket was held in Vanier's name but, it is presumed, on the basis of his action, that it has been transferred to his wife. An informant he will be entitled to retain earnings of the ticket.

Two Canadians and one American reaped small fortunes as a result of the running of the St. Leiger stakes at Doncaster, England.

Besides Adrien Vanier, 54, of Montreal, a ticket on Felicitat, the second horse, is held by A. Labelle, of Quebec City, who receives \$36,000. William A. Hesse, Calumet City, Ill., held a ticket on Scarlet Tiger, in third position. Hesse wins \$18,000.

British Naval Officers Make Hazardous Voyage

Sailed Across Pacific In Fifty-Four Foot Ketch

Victoria, B.C.—An adventurous 6,000-mile sailing voyage from Hong Kong ended Sept. 12, when the 54-foot ketch "Tal-Mo-Shan" dropped anchor in Victoria Harbor. Five British naval officers, en route to England, were aboard.

The craft, which has no auxiliary power, sailed all the way across the Pacific. The trip was made via Yokohama, Atsugi, the Aleutian Islands, and Dutch Harbor, Alaska. The party is sailing to the United Kingdom for the adventure.

The ship was hoisted to 20 hours when a typhoon named "Cousin" hit eastern waters. But no damage was suffered.

INITIAL POOL PAYMENT 45c. IN SASKATCHEWAN

Winnipeg, Man.—Substantial increase in 45c initial payments on pooled wheat this year were in store for farmers of western Canada today.

The Saskatchewan wheat pool has announced an initial payment of 1933-34 pooled wheat of 45 cents a bushel, based No. 1 Northern, Fort William. This is an increase of 10 cents per bushel above the payment made last year. Alberta and Manitoba boards will meet in a few days, when a final decision respecting their initial payments will be made.

In view of the lateness of the announcement wheat growers in Saskatchewan who delivered grain to country elevators after July 15 will benefit from the increased payment. They have already received an advance of 35 cents, equivalent to last year's initial payment. Alberta and Manitoba wheat pools have been accepting this season's wheat on the basis of a 35-cent initial payment.

Saskatchewan wheat pool's initial payment for 1933-34 pool deliveries will be 45 cents, based No. 1 Northern, Fort William. This represents an increase of 10 cents over the initial payment made last year.

A press statement from pool headquarters reads:

"The policy of the organization as established last year requires the grower to declare his intention of pooling at the time he delivers his first load. The same policy is in effect for the present crop year. In view of the lateness of the announcement of the initial payment, however, the growers having grain in store at country elevators which was delivered after July 15 will have the opportunity of delivering their wheat to be marketed through the pool, on which an advance of 35 cents (One Northern basis) has been made. This advance is equivalent to last year's initial payment. Adjustments in order to bring the payment up to 45 cents will be made immediately to pool elevator agents for distribution."

"The first five grades are deliverable to the 1933-34 pool, from One Hard to No. 4 inclusive."

MOLLISONS WILL TRY ANOTHER DISTANCE FLIGHT

Montreal, Que.—A young man who has scanned the widening horizons from Grosvenor to the Cape and all along the world's airways came into Montreal on the way to the start of his spectacular adventure. And in the manner of pioneers, the exploit will be shared by his wife.

By the end of this month, barring the unexpected, Jim and Amy Mollison will be driving eastward from Canada to beat the non-stop distance record of the air.

Quiet, casual, and the idol of the ship, Jim arrived on the "Empress of Britain" from Grosvenor, a bit late in Montreal, and planned to join Amy in Toronto. Together they will complete preparations for the attempt to beat the mileage of the French flyers, Codos and Rossi.

The packed hands of Wamaga Beach, near Collingwood, Ont., will in all probability be the take-off spot. A definite decision was still to be made, and Jim says it's up to Amy, who knows the ground.

"We'll get away just as soon as possible after the equinoctial gales are over," the 28-year-old flyer said. "How far are we going? As far as we can."

It is probable this will be the last spectacular flight of his nature undertaken by the Mollisons. Jim said as much. "I've made six tough trips, including three across the Atlantic. That should be almost enough. And Amy has had more than her share of danger. I don't think we'll try anything on this scale again."

Canada Has Butter Surplus

Ten Million Pounds More Than Needed For Domestic Use

Ottawa.—Canada suddenly finds itself with 10,000,000 pounds more butter than will be needed for domestic consumption this winter. W. H. Forster of Hamilton, president of the National Dairy Council, said the total on hand exceeds the requirements of other members of the council, had conferences with Hon. H. H. Stevens, Minister of Trade and Commerce, and Hon. Robert Weir, Minister of Agriculture, to see what can be done about it.

The impression seems to be that Canada made too much butter and not enough cheese. Canadian cheese commands a premium on the British market and the butter has to take a discount as compared with the New Zealand product.

Storage figures on September 11 showed 41,490,441 pounds of butter on hand versus 31,490,441 pounds on the corresponding date was 30,605,169.

Western Canada holders of butter are reported to be prepared to take a loss and ship this surplus butter to the United Kingdom, rather than glut the domestic market. There is a move on foot to do the same with Ontario butter. The conversations Tuesday were to devise the best means of going about the task and no definite decision was reached.

Rule Made Clearer

Railway Board Explains Clause Regarding Demurrage On Grain

Ottawa, Ont.—The Dominion Board of Railway Commissioners issued its interpretation of one clause in the Canadian car demurrage rules relating to grain shipments to western Canada. Under the rules shipments may be inspected at West Toronto, Ont., and Outremont, Que., in eastern Canada, but it is stipulated "demurrage shall not be collected from the consignee for any delay for which the government or railway officials may be responsible."

Made Cheap Trip

Calgary, Alta.—Two McGill University students returned to their homes in Calgary after a tour of the Old Country in an auto for which they paid \$70. The students, R. A. Brown, Jr., and John Haekney, journeyed to the Old Country on a cattle train, bent on seeing England and Scotland, bought gear from four journeyed 3,500 miles, declaring they spent only \$4 on repairs for the ancient machine, which they sold for \$25.

Canadian Poultry Free

Ottawa, Ont.—The tariff which the United Kingdom imposed on dead fowl, and on live geese from foreign countries after September 15 will be three pence a pound instead of 10 pence, ad valorem. The Canadian product will continue to go into U.K. markets free.

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Miss Dorothy Roberts is a visitor to Lethbridge.

General regret is expressed at the illness of Mr. Frank J. Smith at Hillcrest.

Hotels Inspector and Mrs. Pollis were in The Pass the early part of the week.

Mrs. Weaver, wife of Corpl. Weaver, of Lethbridge, was a recent visitor with her daughter in Bellevue.

Morris Houghton, 38, and son, Albert, 15, died at Hantsport, N.S., as a result of eating poisonous mushrooms.

Mrs. P. Wasnack, who had been visiting her parents here, Mr. and Mrs. J. Angus McDonald, returned to the States last week-end.

Mr. and Mrs. Charles V. Mitchell, of Beaver Mines, are rejoicing over the birth of a son on September 10th, at St. Vincent's hospital, Pincher Creek.

Mrs. E. Chardon arrived by Monday night's train from an extended visit to her old home and mother in France, and to points in Belgium and the United Kingdom.

Remember the Harvest Festival at the United church on Sunday, September 24th; also social on Monday, the 25th. See church column for particulars.

Mrs. Susan Robinson, of Stettler, president of the Rebekah Assembly of Alberta, has of late been paying her official visits to lodges in the district west of Edmonton.

Mr. H. E. Dial, Alberta sales representative of the Western Sales Book Company, Ltd., was in town from Calgary on Tuesday, and incidentally called upon The Enterprise.

W. Bond, of the local customs office, left today on vacation, and with Mrs. Bond are motoring to the Pacific coast. Mr. Bond is being relieved here by Mr. J. R. Gresham, of Okotoks.

CLOSING DANCE—The last Saturday night dance of the season, at Crows' Nest Lake Pavilion, will be Saturday, September 23rd. Dancing from 8:30 to 12; gents 50c, ladies 25c; tax included.

Mrs. C. Harrison wishes to thank the following for donations so kindly forwarded her: Blairmore Miners' Association, \$100; Blairmore Business People, \$34; Washhouse engineers, \$15; Mine Officials, \$72—a total of \$221.

Mrs. Shaw, of the Hennessey & Wilson staff, Lethbridge, will display Fall Fashions in Coats and Dresses in the parlor of the Greenhill hotel next Wednesday. The women of Blairmore and surrounding towns are cordially invited.

H. P. Keith, the acting deputy minister of public works for the province, was formerly district road engineer in Lethbridge, succeeding R. J. Gordon, now of Los Angeles. From the Lethbridge office Mr. Keith went to departmental headquarters at Edmonton.

A Coleman young man recently took his best girl to dinner in a Blairmore restaurant. While they were dining, the girl discovered a fly in the soup. "Waiter," she said, "remove this insect." The waiter did, and the young man has been going around on crutches ever since.

A law aimed at Nazi organization in Denmark, but prohibiting the wearing of uniforms for a year by all organizations, prevented a visit to Copenhagen this summer of the British Scout and Guide goodwill ship, cruising the Baltic under the leadership of Lord and Lady Baden-Powell.

Stanley Boyle, of Lake Louise, has been visiting relatives at Granum.

Grande Prairie presbytery of the United church has distributed five tons of relief clothing, comprising 100 bales.

Mr. Homer P. Keith has been appointed to succeed the late J. D. Robertson as acting deputy minister of public works.

Charlie says that a man is not necessarily red because he wears a stick. It's simply a protection device (a weapon, to wit).

The past grands of Cassandra Rebekah Lodge No. 31 will hold a Halloween dance and supper in the new I.O.O.F. hall at Natal on the night of Tuesday, October the 31st.

There is no talk of unemployment in the prairie towns, where conditions are just as tough as in the mining centres. The farms have absorbed all those who were willing to work.

W. J. E. McRoberts, of Pincher Creek, recently received word of the death of his mother, who passed away at New Liskeard, Ontario, on September the 1st. Mrs. McRoberts was in the nineties.

EYES EXAMINED at the Blairmore Pharmacy on Saturday afternoon, September 23rd, E. J. ANDERSON, B.Sc., in attendance.

REWARD—Taken from the Lundbreck hall on Friday night last, gray fedora hat, name "H. T. Richardson" and Toronto address on inside band. Reward for return to Post office, Lundbreck, also brown hat in exchange.
